

“Enlighten your products
with TriLight”

TriLight Microwave Europe

TriLight Microwave Europe. A company with a new concept in the European market of high end electronic components.

TriLight Microwave Europe
accredited to
Quality System ISO 9001
since December 2016

TriLight Microwave Europe an
ISO 9001:2015 company

TriLight Microwave Europe was founded in 2013 by 3 experienced professionals with European sales knowledge. We offer a dedicated technical sales and marketing service for small to medium size manufacturers, targeting customers across Europe. We focus on providing active and passive components for following application areas:

Aerospace & Satellite

Telecom, Broadcast & Optical Communications

Medical & Healthcare

ATC, Radar, Datalink, Avionics, Control Systems

We are a combination of a technical representative and distributor, combining and providing access for our customers to the manufacturer's resources.

We are focusing, targeting and offering synergistic solutions from highly innovative niche suppliers. Some products are solely designed to use within the customer specifications, so we can offer much more than a combination of standard catalog items.

Products offered are designed and proven for use in demanding and harsh environments, and all carry additional testing and screening capabilities to give the engineers the required level of confidence.

SUPPLIERS AND PARTNERS

PASSIVE RF COMPONENTS

Dalicap Tech Corporation CHINA

RF High Power Hi-Q Low ESR Capacitors, Assemblies, Non-Magnetic Capacitors. X7R, NPO, Broad Band Capacitors >60GHz, Power, Medical, Optical high end Industrial

Knowles Precision Devices USA

SLC Capacitors, Multiple value Row Capacitors, Submount Capacitors Mounting Shorts. Volttronics, Johanson Manufacturing, DLI, Syfer. Trimmers EMI Filters. RF Power Resistors, TF Filters.

Quantic Evans USA

Hybrid Capacitors for Defense and Aerospace. Hybrid, high power, high current, compact hermetic package, High Temp 200C, High Pressure, High Shock, Modules and Assemblies

Vanguard Electronics USA

RF Inductors, Chip, Variable, Fixed, Toroidal, Wide impedance Matching, SMD, Thru-Hole, EMI/RFI, Filtering. Power Magnetics, Pulse and Data Bus, RF and Microwave. Custom designs.

ACTIVE RF COMPONENTS

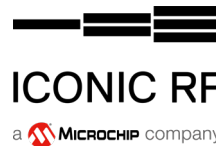

Vectrawave France

MMIC, X band more than 20-30W pulsed, Ka, Ku, C band. Multi-Function Chips, custom development and low scale production. Optical products.

Integra Technologies USA

High-Power, High-Efficiency RF Power Pallets and Transistors, including 50-Ohm Fully-Matched Transistors for Radar, Avionics and Data Link Applications GaN/SiC, LDMOS, VDMOS and Si-Bipolar Technologies

Iconic RF UK (A Microchip company)

Power Transistors, C, X and Ku Band. MMIC solutions for 5G and Ka Band. GaN and GaAs. Custom MMIC and RF power transistor development. Characterization, Rf Tests and application support

FREQUENCY PRODUCTS

Axtal Germany

Crystals and Oscillators. Oscillators. OCXO, TCXO, VCXO, Mil- Space applications. Synthesizers. In house screening and testing.

RF MODULES & SYSTEMS

Agile Microwave Technology USA

RF Amplifiers, High Power Amplifiers, Mixers, Limiters & Switches, Multipliers

AFT Microwave GERMANY

Ferrite-based microwave components such as circulators, insulators and loads. Passive high-performance microwave components and subsystems. Electronic devices arc detectors, TCUs and AFCs Thin-film circuits on ceramic substrates

THIN FILM TECHNOLOGY

CX Thin Films USA

Leading manufacturer of Thin Film Resistors and Attenuators, Custom and Functional. Build to print TF substrate services. High quality and fast turnaround. All design and manufacture carried out in own facility in Rhode Island, USA.

Head Office: **TriLight Microwave Europe**
